Songs about saturday night

When he turned 18 he went off to the war
His sweetheart wrote him letters she said she d wait for sure
By the time he came back home, she was nowhere to be found
So he packed his bags hit them honky tonks from town to town

CHORUS

Well everywhere he went, everybody knew his name
But he never got the big hit, he stayed just the same
And he moved back to the country when it was time to call it quits
Now if you want to hear his music, you have to buy his greatest hits

CHORUS x2
