CAPO 1

Intro Single strums

```
G             Am
Just like the wind,
     C              D
Sent chills down my spine,
        G             Am          C      D
And the waves smashed down from a high,
        G         Am
And the rain fell cold,
     C            D
On a hot summers night,
          C                   D          G
And the sun would shine just for you and I,

But, the,

G          Am       C            D
Wind never blew, my best friend,
        G            Am           C      D
And the waves, they never crashed my car,
        G          Am         C         D
And the rain never poured hot wax on my ballsack,
         C             D            G
And the suns beatings never left a scar,

G   D

    G        Am         C            D
Our river of love would run fast and deep,
        G           Am        C            D
And the trees would sway to and fro,
        G              Am           C              D
And the leaves of your heart, rest softly on the ground,
       C         D       G                         D
And a star would soar so low,

But, A,

G           Am         C          D
River would never run, out on its man,
      G                Am      C     D
```

G Am C D

C D G D
And a star would never fuck your best friend,
