Adele

```
G                           Em
Found myself today singin  out loud your name
    C                    D      C          G
You said i m crazy, if i am i m crazy for you
G                              Em                              C
Sometimes sittin  in the dark wishin  you were here turns me crazy
         D                C        G
But it s you who makes me loose my head

    G                          Em
And everytime i m meant to be acting sensible
    C                               D      C         G
You drift into my head and turn me into a crumblin  fool

Em                                     C
Tell me to run and i ll race, if you want me to stop i ll freeze
               G                                Em
And if you want me gone, I ll leave, just hold me closer baby

And make me

C D       G
Crazy for you,
C D       G
Crazy for you

G                                Em
Lately with this state i m in i can t help myself but spin
  D                     C                D         G
I wish you d come over, send me spinnin  closer to you
G                             Em
My oh my how my blood boils, a sweet taste for you
D                                C       D        G
Strips me down bare and gets me into my favorite mood

G                                 Em
I keep on tryin , fightin  these feelings away
        C              D         C    G
But the more i do, the crazier i turn into

Em                C             G
Pacin  floors and openin  doors hopin  you ll walk through
    Em
And save me boy

Because i m tooooooo
