```

```
C        Am
A million and one thousand things are screaming in my head
                      Em
And I can t seem to forget
                       C
Can t stop thinking about you
                                                Am
I could ride across the sky in a bicycle built for two
                              Em
Could you teach me how to ride
```

Like you taught me how to feel alive

Chrous (just regular strumming here)

```
F          C                Em                        Am
Not a single day goes by when I don t wish for you to
F            C                           Em
watch me pause to find the words to steal your heart away
F             C                                  Em          Am
But I play every word back round and round to try and find
F              C                          Em
a clue you might have left behind to say you feel the same
```

Chorus: [OK, I ll be honest I m not sure about this part. Corrections are welcomed

```
C      Em        Am  C
Even if I know
C        Em                Am   C
I ll never be your Leo
C                 Em
I ll keep holding on
```
