Familiar
Agnes Obel

```
G#m                   B              G#m     B
Can you walk on the water with I, you and I?
G#m                                     B                  G#m       B
 Because your blood s running cold  said the familiar, true to life
G#m                   B            G#m     B
Can you walk on the water with I, you and I?
G#m                                 B                     G#m
Or keep your eyes on the road and live there familiar, without you
    B
and I
G#m           B              G#m      B
It glows with gates of gold, true to life

G#m                                B            D#m
And our love is a ghost that the others can t see
       C#
It s a danger
    G#m                     B          D#m
Every shade of us you fade down to keep
                        B
Them in the dark on who we are
(Oh what you do to me)
G#m           B       D#m
Gonna be the death of me
         C#
It s a danger
          G#m                        B            D#m    C#
 Cause our love is a ghost that the others can t see

G#m                     B              G#m      B
We took a walk to the summit at night, you and I
         G#m               B                G#m   B
To burn a hole in the old grip of the familiar, you and I
G#m              B             G#m    B
And the dark was opening wide, do or die
G#m      B             G#m        B
Under a mask of a million, ruling eyes

        G#m                       B            D#m
And our love is a ghost that the others can t see
         C#
It s a danger
G#m                        B            D#m
Every shade of us you fade down to keep
                        C#
Them in the dark on who we are
(Oh what you do to me)
```

G#m B D#m
Gonna be the death of me
C#
It s a danger
G#m B D#m B
Cause our love is a ghost that the others can t see
