Two Hearts
Bruce Springsteen

```
   C4        C         C4      C C4 C
I went out walking the other day
     F              C       F        C   C4
Seen a little girl crying along the way
            C        C4            C     C4       C C4  C
She d been hurt so bad said she d never love again
     F          C     F           C C4
Someday your crying girl will end
                       F
And you ll find once again

     C          G          F
Two hearts are better than one
     C          G            F
Two hearts girl get the job done
     C          G           C C4   C
Two hearts are better than one

     C4               C       C4            C C4
Once I spent my time playing tough guy scenes
         C     F       C        F            C C4
But I was living in a world of childish dreams
 C    C4        C        C4          C C4
Someday these childish dreams must end
    C        F           C      F         C C4  C
To become a man and grow up to dream again
                       F
Now I believe in the end

     C          G          F
Two hearts are better than one
     C          G            F
Two hearts girl get the job done
     C          G           C C4  C
Two hearts are better than one

    F
Sometimes it might seem like it was planned
     C                 G                      F
For you to roam empty hearted through this land

Though the world turns you hard and cold
 C                         G         C
There s one thing mister that I know

       C4           C     C4          C C4
That s if you think your heart is stone
```

```
                 C      F        C         F        C C4 | C C4
And that you re rough enough to whip this world alone
C      C4         C        C4          C C4  C C4
Alone buddy there ain t no peace of mind
       C     F            C     F        C C4  C
That s why I ll keep searching till I find
           F
My special one

     C          G          F
Two hearts are better than one
     C          G            F
Two hearts girl get the job done
     C          G           C C4
Two hearts are better than one
    F           C          G          F
I believe two hearts are better than one
     C          G            F
Two hearts girl get the job done
     C          G           C F  C
Two hearts are better than one
```
