Missing A Girl
Cold Chisel

MISSING A GIRL
COLD CHISEL

VERSE 1
```
G                     Bm
Looking through the tarmac rain
         C            G
At the rows of giant birds
G                   Bm
They re all feeding at the gates,
            C                      G
There are tails from all over the world
G                 Bm
A million people in between
      C           G
Hurry by the TV screens
G                  C           G
And I just sit here missing a girl
```

VERSE 2 (same chord progression)
Cuppa coffee, airport bench
Carry on, and me
Something messed up my connection
To where I want to be
Something happened, the line dropped out
Something she don t wanna talk about
And I just sit here missing a girl

VERSE 3
Overhead the speakers tell me
One more delay
I hear the numbers
But my heart s a million miles away
She made it clear we could still be friends
But she won t be there to meet me at the other end
And I just sit here missing a girl

VERSE 4
She made it clear,
I try to see it through these tears
I know it s true
And I just sit here missing a girl

OUTRO
```
G                  C           G
And I just sit here missing a girl
G                  C           G
