```
G                            Am7     G
Don t you like the way she talks to you
C                   D      G
When she s feeling woman warm
                       Am7
And don t it make you feel so good
  C      Bm7        Am       C     D7sus
Just to know she s yours all by yourself

Don t you like to see the sun go down
When she s lying close to you
And can t you feel her all around
And when she loves you ain t she something else

Chorus:
C          D7    G            C              G         D11
Ain t she just some kind of lover in the morning
  C    D7    G             C  Bm7            Am7   D7
Can t your arms feel the warmness where she slept
  D11            G       C              G
Ain t she just all that you have ever wanted
      C        Bm7      Am   D7             G
And when she loves you ain t she something else

Don t you like the way she clings to you
And loves you  til there s nothing left
Now tell me don t her lips taste good
```

And when she loves you ain t she somthing else

Repeat Chorus:

```
       C                   Am      D7           G
Lord, When she loves me she s sure something else
```
