Verse:

```
           C#                      G#
Well it s cold outside and the lights are low

    F#                                          C#     G#
Everything around me is covered in the deep snow

                    F#
And I m thinking about you

           C#                G#
Well the gifts are laid beneath that tree

            F#                                          C#    G#
And I m wondering to myself if you re thinking about me

                    F#
Are you thinking about me?
```

Prechorus:

```
 F#                G#            Bbm
Coz it s not like I just wanna be

Bbm                      G#        F#
The guy that you re waiting to see

       F#    G#     Bbm     G#
When every festivity is over
```

Chorus:

```
                C#                    G#
I wanna be the 12 days wrapped in 1

                    Bbm                     F#
I wanna be your drummer boy, burrum bum bum bum

                  C#              G#
I wanna be the eggnog in your rum

                  C#                   G#
I wanna be the north star that you see

                   Bbm               F#
I wanna be the partridge in your tree

Don t you like my smile?

            C#          G#

But I counted all the chairs and you re still missing one spot
