```
       D                    F#m               A
Until we can uncover the colors of all our faces
Then we can encourage the light
      D    F#m                      A
to hover upon us and  love all our races
weaken this damn fight,
D   F#m    A
go up go over, tell me there s another choice,
D     F#m      A
But to grow older.

(Chorus)
G             D
Well I wanna know, Is this a world that we
       G                 D
wanna live in? I wanna know,  is there any way that we ll
       G                D
be forgiven?  I wanna know, is this a world that we
        A           G
can be proud of?           I wanna know.

D                            F#m                  A
We re always taught how to learn how to burn it away now,
No never not ever no more,
D                  F#m
it s a battle that no one
                    A
can win and it s lasting,
Might call it a war.
D              F#m             A
It s taken us inside a world that
we ve built up a wall against
             D        F#m       A
barbed the wire upon the fance
we re  leaving ourselves behind.

(Chorus)
