Other Side
David Gray

```
Chords                                                 riff
     Cm  Csus4   F   F7  Eb   Bb   G   G#   D
e |--1---3------3---1---1---0---0---1----0--------1-0----|
B |--3---3------0---0---1---1---2---3----0------------3--|
G |--2---2------0---0---2---0---2---3----1---------------|
D |--0---0------0---0---3---2---2---3----2---------------|
A |--0---0------2---2---3---3---0---1----2---------------|
E |-------------3---3---1----------------0---------------|
```

Notes:

The Dm chord in the intro/chorus is only strummed for one beat, then immedately you play the Dsus4 chord.

The G in the intro/chorus is stummed for two beats, then G7 for one, then you play riff directly into the Dm and the Dsus4.

All that together is the intro/chorus.
Looks like this:

```
     Cm  Csus4       F   F   F7  riff
e |--1---3---3---3---3---3---1---1-0---|
B |--3---3---3---3---0---0---0-------3-|
G |--2---2---2---2---0---0---0---------|
D |--0---0---0---0---0---0---0---------|
A |--0---0---0---0---2---2---2---------|
E |------------------3---3---3---------|
```

The riff is followed immediately by a Dm. You don t have to play the riff at all if you don t want, you can just strum another G7 chord, but it will sound more like David s piano if you at least play the riff a few times.

Plus your index finger is already on the F if from fretting the G7, and if you fret the D with your ring finger, the riff sets your fingers up for the Dm.

I tried to space the position of the chords to go with the lyrics. Play along with the song, you should be able to hear the changes.

Intro/chorus x2

```
Cm Csus4                     F    F7    riff   Cm Csus4

                    F
To harm you or your kin
                               G
Are you so scared to look within
                                 Cm
The ghosts are crawling on our skin
       Bb               G#

We ll not undo what has been done
D              F                 Cm Csus4
Or change the moment when it s gone
