Tinman
Animal Kingdom

```
       Ebm           C#
Got no arms, got no legs,
       C#                      B
got no shoulders but I got a head
           B                  Ebm               C#
I ve got a head, that tells me stupid things to do

And I got heart, and I got heart,
although its slowing pulling me apart,
cause I never feel the same as you
                   C#                          B
So tell me if it s love, cause baby I m a tinman
                C#                        B
Tell me if it s love, I wanna be a real one

Well is this love? Is this pain?
I gotta a feeling that I cannot name
slowly changing every part of me
I know you think I m just a toy,
But I wanna be a real boy
I only want to feel the same as you

So tell me if it s, cause baby I m a tinman
Tell me if it s love, I wanna be a real one
Tell me if it s, cause baby I m a tinman
                  C#                           Ebm | C# | B
Since you took my heart, I ve got a missing part

I ve got a missing part.....

I got no arms, got no legs,
got no shoulders but I got a head
I ve got a head, that tells me stupid things to do
I cannot eat, I cannot sleep
I gotta hole inside of me
cause I never feel the same as you

So tell me if it s, cause baby I m a tinman
Tell me if it s love, I wanna be a real one
Tell me if it s, cause baby I m a tinman
Since you took my heart, I ve got a missing part

I ve got a missing part.....
```
