Verse:

```
C                                     G/B
My heart and flesh cry out
                                   Am
For You the living God
                                           D
You are the yearning of my soul
C                                   G/B
Lord where else can I go
                                   Am
For You and You alone
                                          D
Fulfill my heart my life my all
```
