```
D           F#m
Press play, fast forward
E                    A
Nonstop, we have the beaten path before us
D               F#m
It was all there, in plain sight
E                       A
Come on people, we have all seen the signs
           D                 F#m
So we will never get back to, To the old school
E                        A
To the old grounds, it s all about the newfound
D                  F#m
We are the newborn, the world know all abouts
E                           A
We are the future and we re here to stay

             D                   F#m
We ve come a long way since that day
            E                        A
And we will never look back, get the faded silhouette
             D                   F#m
We ve come a long way since that day
            E
And we will never look back
        A                       D *
Look back, get the faded to you
```

Riff:

```
D                      F#m
Straight ahead on the path we have before us
```

E                    A
Day by day, soon the change will come
D                        F#m
Don t you know we took a big step forward
E                        A
Just lead the way and we pull the trigger

           D                 F#m
So we will never get back to, To the old school
E                        A
To the old grounds, it s all about the newfound
D                  F#m
We are the newborn, the world know all abouts
E                           A
We are the future and we re here to stay

             D                   F#m
We ve come a long way since that day
            E                        A
And we will never look back, get the faded silhouette

             D                   F#m                     E     A
We ve come a long way since that day, that day, that day

             D                   F#m
We ve come a long way since that day
            E                        A
And we will never look back, get the faded silhouette
             D                   F#m
We ve come a long way since that day
            E
And we will never look back
        A                       D *
Look back, get the faded to you
