Can't Stay Alone Tonight
Elton John

verse 1

```
C#                          G#
I blew the dust out of the corners
F#                           Bbm
Threw some dead wood on the fire
C#                  G#
Tuned the radio to silence
F#                          C#
Watched the evening sun expire
Bbm                              Fm
Should have called you up this morning
F#                      Ebm
But I m such a fool at times
C#                         G#
I still search my shaving mirror
B       F#                  C#
Looking for your face with mine
```

Chorus

```
          F#                   G#
     And I can t stay alone tonight
     F#                        C#
     Can t let another day go by
               Bbm
     Why is it always this way?
     Ebm                         G#
     Time never seems to really fly
         F#                           G#
     And time is never really on my side
          F#                   Fm   Bbm
     And I can t stay alone tonight
     Ebm                              G#
     Things have to change and they might
          F#            G#      C#
     But I can t stay alone tonight
```

verse 2

```
C#                       G#
Chalk up one more crazy notion
F#                    Bbm
Imagination running wild
C#                      G#
```

```
But if I needed confirmation
F#                            C#
I would have gone that extra mile
Bbm                            Fm
You re the last chance on the highway
F#                        Ebm
I m that open stretch of road
C#                      G#
You re the diner in my rear-view
B        F#              C#
A cup of coffee getting cold
```

Chorus

```
           F#                   G#
     And I can t stay alone tonight
     F#                        C#
     Can t let another day go by
               Bbm
     Why is it always this way?
     Ebm                         G#
     Time never seems to really fly
         F#                          G#
     And time is never really on my side
           F#                   Fm   Bbm
     And I can t stay alone tonight
     Ebm                             G#
     Things have to change and they might
           F#            G#      C#
     But I can t stay alone tonight
```

Bridge

```
A                           C#m
Bruised in this cold war of words
              B                    E
We ve come undone two loose ends alone
    A                             C#m
Possessed by that curse you ve endured
                 F#m                          G#sus4  G#
The spell that I cast couldn t make you come home
```

Chorus

```
           F#                   G#
     And I can t stay alone tonight
     F#                        C#
     Can t let another day go by
```

```
          Bbm
Why is it always this way?
Ebm                        G#
Time never seems to really fly
    F#                          G#
And time is never really on my side
      F#                   Fm   Bbm
And I can t stay alone tonight
Ebm                            G#
Things have to change and they might
      F#            G#      C#
But I can t stay alone tonight
 Ebm                             G#
Things have to change and they might
      F#            G#      C#
But I can t stay alone tonight
```

Outro

```
C#     F#     C#  G#  C#
```
