Reach
Gloria Estefan

```
F     F/C#              Dm     Gm  C
Some dreams live on in time forever
      F          F/C#               Bb - Bbm
Those dreams, you want with all your hea-art
         Dm             Gm
And I ll do whatever it takes
       Dm                           Gm
follow through with the promisse I made
       G#
Put it all on the line
       (G#)                         C
What I hopped for at last would be mine

(Chorus)

           F     C
If I could reach, higher
             Gm
Just for one moment touch the sky
              Bb
From that one moment in my life
I m gonna be stronger
Know that I ve tried my very best
I d put my spirit to the test
           C
If I could reach
Some days are meant to be remembered
Those days we rise above the stars
So I ll go the distance this time
Seeing more the higher I climb
That the more that this dream will be mine

(Repeat Chorus)

(Agora com  G      D      Am       C )

If I could reach, higher
Just for one moment touch the sky
From that one moment in my life
I m gonna be stronger
I m gonna be so much stronger
Yes I am
I put my spirit to the test

If I could reach, higher
If I could, If I could
If I could reach
```

Reach, I d reach, I d reach
I d reach, I d reach so much higher
Be stronger
