I.O.I.O
Bee Gees

```
E       C#m
I.O.I.O.

E                                   C#m
You know I love getting up in the morning
               E               C#m
When the sun first strikes the trees
           A                 G#m
All the morning birds that sing above
F#m                    B7
Still bring back memories
 C#m                      E
Of a girl who stood beside me
 C#m                        E
When the rights I did were wrong
            A              G#m
But she went back down the river
               F#m              B7
Just when I thought I could be strong
           F#m             E
When I thought I could be strong, so I sing

E      C#m
I.O.I.O.

E                           C#m
She never told me why she left me
            E          C#m
But the letter said goodbye
          A                 G#m
Now my mornings are for wond ring
        F#m                B7
And my nights to reason why
         C#m               E
Why a stranger comes to steal the love
        C#m          E
Of a girl I had to hold
        A                  G#m
But she went back down the river
                 F#m              B7
Just when I thought I could be strong
             F#m         E
When I thought I could be strong, so I sing

I.O.I.O.
```
