Am **D**
I m a slave to work
G **B7** **Em** **A**
I m only living when I walk amongst the office staff

```
             D              B7
And catch up with the office wag
           E      A
I ll be in bed by nine
   B        A
My curtains drawn
               E
My thoughts composed
  A              B
I get to work on time
```

(verse chords)
She gave me some dictation
But my strength is in administration
I took down all she said
I even took down her little red dress

We need to talk
Step into my office, baby
I wanna give you the job
I m pushing for a raise
Been pushing now for days

BRIDGE 2 :

```
E               A
My output is in decline
A                G     C   A
I was burned out after Thatcher
E                D6
My banner I laid down with a sigh
A                   G    C     A
Now I doubt if I ll ever catch her
```

(**E7**)

(verse chords)
I ve got to change my ways
Dress for business every day
A smart suit and a kipper tie
A big arrow pointing to my fly

(chorus chords)
We need to talk
Step into my office, baby
I wanna give you the job
A chance of overtime
Say, my place at nine?
