Wildfire by Ben Rector

Intro - **F Dm Bb C**

```
F                    Dm
I never was much good at hoping
     Bb              C       F
Until you took my heart and tore it open
                    Dm
Never understood what love was
    Bb                  C      F
Until I took your hand with the lord above us

Chorus:
          C                       Dm
And then you caught flame like a wildfire
Bb                 F
You came a running to my life
       C                      Dm
And you light up the dark but I canâ€™t see
Bb                   C          F
How you belong to a boy like me

(Intro Chords)

    F                       Dm
And I have learned that youâ€™re not perfect
          Bb                   C        F
And that sometimes the one you love can burn you
F                       Dm
Itâ€™s just the fools looking backwards
       Bb                      C       F
A bitter heart turns the love we made to ashes
       Bb                          C         F
A bitter heart turns the love that we made to ashes

           C                       Dm
And then you caught flame like a wildfire
Bb                  F
When Iâ€™m with you Iâ€™m so alive
       C                      Dm
And you light up the dark but I canâ€™t see
Bb                   C          F
How you belong to a boy like me

(Intro chords)
```

Cause you caught flame like a wildfire
Bb              F
When Iâ€™m with you Iâ€™m so alive

How you belong to a boy like me

How you belong to a boy like me
```
