Regular Tuning
This song is in Db major and uses the following chords:

```
    G     F#m     A     D   The repeated notes that run through the song are
e|--2---|---1---|--4--|--4--|----------------11---13-------------------------|
B|--2---|---1---|--4--|--6--|-------------------------------------------------|
G|--3---|---1---|--5--|--6--|-------------------------------------------------|
D|--4---|---3---|--6--|--6--|-------------------------------------------------|
A|--4---|---3---|--6--|--4--|-------------------------------------------------|
E|--2---|---1---|--4--|--x--|-------------------------------------------------|
```

You can play this song with just power chords of the above and
have a tremelo effect on and itâ€™ll sound like the background guitar

Song sounds good with a piano, a distorted guitar, and drums (and singers of course)

Beginning: You can use a delay pedal or something to
just keep the repeated notes going throughout the whole song

Starts with Gb and the repeating notes
