flags and mental jewelry is all i know
**G** **Bm** **E**
and they keep me happy and warm inside

repeat 1st verse and chorus

(D-**G** alternating)

So I said unto this man  who are you, and where do you come from?

And he proceeded to tell me many, many, many, many, many, many, many things

But I said nothing at all

For the flower in the corner by the room in the window and the sun

Said it all

**G** **F#**
at least they said they would said they could
**G** **F#**
mama said they would do me good.....
