Counting The Days
Bic Runga

```
               G          Gmaj7
Counting the days on the calendar
                  G7    C                 Cm
Strange how they bleed into each other  All that I need
     G        D             G          Gmaj7
Is a day with you Pencil me in on your Saturday
          G7    C                   Cm
Taking my leave Should I be waylaid please wait for me

     G        Gmaj7         G7     Cm
On a day with you Maybe for now an hour will do

  Em            F#mdim
Remember my dear this time last year
    D4                         A
The sunsets were late and the days were long
                     Am                Em
And the nights were filled with song
                 Am               D
The nights were filled with song

Em                          F#mdim
Strolling the street we re strangely complete
D4                        A
Let s stay awake till the morning comes
               Am      Em
We don t need anyone
               Am     D
We don t need anyone

           G           Gmaj7                    G7
Wasting my life at the traffic lights Getting nowhere
C                         Cm
Trapped in the turnstiles Stay within reach

     G        Gmaj7         G7     Cm              G
Of a day with you Maybe for now an hour will do
