Go Where No Ones Gone Before
Billy Preston

```
G                   B7
     Trippin  up, electric lights
Em                                  A7
     I ll take you places you ain t gone before
C               B7          Em          C
     I ve got a formula for givin  the lights
Am                          D7          C    D
Better, girl, stick with me

G                      B7
     Take my hand and hold on tight
Em                               A7
     This rollercoaster s gonna go all night
C                       B7         Em        C
     Too damn good, this love, it must be a crime
       Am                D7     G
Let us go where no one s gone before

B7                Em
     Born under a brilliant star
C                         G
Stay with me, we can t go wrong
B7                         Em
 I don t care who s listening
A7                      D7
Come on, help me sing along

G                         B7
 Daring you on the count of three
Em                                     A7
 You re gonna feel like you re royalty
C                       B7         Em          C
 I ll storm the palace and make you my queen
               Am                D7     G
 Let us go where no one s gone before, yeah!

B7                Em
     Born under a brilliant star
C                         G
Stay with me, we can t go wrong
B7                         Em
 I don t care who s listening
A7                      D7
```

Come on, help me sing along

```
G                          B7
 Take my hand with all your might
Em                            A7
 Time for you and I to settle the score
C                     B7                   Em         C
 Our future s out there and we re getting it right
               Am                 D7     G
 Let us go where no one s gone before

               Am                 D7     G
 Let us go where no one s gone before
               Am       D7                      G
 Let us go where no one else has gone before
```

This is the theme to L/R: Licensed by Royal. I m fairly inexperienced with tabbing, but
pretty sure this is right. Good luck!
