You Put This Love In My Heart
Mxpx

```
C                    A                                F
I found it hard to believe, someone like you came for me
             G          C
you put this love in my heart
I tried, I could, I refused, you gave me no time to choose
you put this love in my heart

A, G

F                       G
I wanna know where the bad feelings go
C                         A
when I m depressed and I get down so low
F                 G              C
then if I see you calling to me, it s all right

I wanna tell you right now,
I m not afraid to say how
you put this love in my heart
there s sometimes when I doubt,
but you offer me out
you put this love in my heart

cause when I see that you died for me
so when I was down I had to believe
cause you following her, proving all your love

C              A                   F
and I know the loneliness I ve had before
C           A       F
in God now, I never feel it anymore
cause your lovin has released me
from all that is in my past
so much more I could say

if I could just find a way
you put this love in my heart
it s all so thrilling to me, I feel so good I could scream
you put this love in my heart

I wanna know where the bad feelings go
when I m depressed and I get down so low
then if I see you calling to me, it s all right
```
