       Bbm
Father time

Now she s gone
She didn t even say goodbye
I guess she didn t have the heart to try
She didn t even have the guts to lie
Father time
```

Only you can turn the page
And close the curtain on this empty stage
Only you can take my pain away

My heart keeps breakin and my body keeps aching for you
It s time to hold on but there s nothin left to hold on to

Father time
Grant me just another day
Of our love I tried to make her stay
Father time
Don t tell me it s too late
All my life you know that I would wait
Father time

Bbm **C#** **G#** **F**
Father, father can t you see I m depending on you
Bbm **C#** **G#** **F**
I m dying at the door to your heart and I can t break through

Father time
Grant me just another day
Of our love I tried to make her stay
Father time
Don t tell me it s too late
All my life you know that I would wait
Father time
She s your child make her mine
