Breathe Carolina

Capo 1

Verses:

```
Cm                  Bb          F
My eyes open to the sound of a song I ve heard,
Cm                        Bb            F
Don t know the name but I know all the words
Cm                            Bb
Sun came up, crawled into the front seat
         F                        Cm
Memories leaving me, was it all a dream I had?
               Bb         F
Time for us to wake up

             Cm                        Bb
I ll save my words to make the most of it

I never meant to be gone so long
```

```
Cm           Bb                    F
Do you still remember my touch at all?

I never meant to be gone so long
Cm           Bb                    F
Do you still remember my touch at all?

I never meant to be gone so long

I m sorry I made you wait
