```
G              Em      G                   Em
When you were young, and your excitement showed...
G                Em              D    A
But as time goes by, is it outgrown?
G                      Em   G                        Em
Is that the way things go? Forever reaching for the gold.
G               Em                 D     A
Forever fades black and comes up cold.
```

whatever goes up must come down
```
