Vaporize
Broken Bells

This is my first post, so please comment so I know how I did, or if i got any lyrics
wrong. :P Oh, when you play the intro/verse, the change from A to G and C to D only gets 2
beats, not 4. Hope you like the tabs! :)

Capo:5

INTRO:

Em, Bm, A, G, C, D

VERSE:

```
Em                  Bm
What amounts to a dream anymore?
          A  G            C      D
A crude device, a veil on our eyes.
Em                    Bm
A simple plan we d be different from the rest
            A  G           C       D
And never resign, to a typical life
```

Em, Bm, A, G, C, D:

```
Em                    Bm
Common fears start to multiply
      A  G       C       D
We realize we re paralyzed
Em                      Bm
Where d it go, all that precious time?
            A  G             C    D
Did we even try, to stem the tide.
```

PRE CHORUS:

```
A             Em
Why should we waste it on
       G                 C  D
Buying into the same old lies?
    A         Em
The longer we wait around
    G                   C  D
The faster the years go by
```

CHORUS:

```
Bm           A
It s not too late
```

```
C         D
To feel a little more alive
Bm          A
You gotta escape
C         D
Before we start to Vaporize
```

(Play intro again here during the instrumental part)

BRIDGE:

(Instrumental: **D**, **G**, **Bm**, **C**, **D**)

```
D                     G
Doubtless, we ve been through this
          Bm             C             D
So if you want to follow me you should know
D                   G
I was lost then and I m lost now
      Bm              C                 D
And I doubt I ll ever know which way to go
```

(Play intro again and fade out)
