Dreaming Of Me
Depeche Mode

```
A                        G               D
Light/life? switch man switch, film was broken only then
A                              G              D
All the night refused tomorrow dancing with a distant friend

B           A            ´B           A
Filming and screening, I picture the scene
B           D                      A G D A
Filming and dreaming, dreaming of me yah

And so we left understanding, clean cut songs? were sounding fast
I talked of sad I talked of war I laughed and climbed the rising past
Filming and screening, I picture the scene
Filming and dreaming, dreaming of me yah

Quickly I remember...before
Timing reason understand like association whore
Filming and screening, I picture the scene
Filming and dreaming, dreaming of me yah
```
