Intro:  G#m  B  E  G#m  G#m  B  E  G#m  C#m
                          G#m        C#m
I should have seen it coming baby
                              G#m
I should have seen the signs
C#m                             G#m
Didn t really think that she needs me
                     B     F#
I must have been blind
C#m                     G#m
She didn t give me a warning
C#m                             G#m
Said I shouldn t treat you wrong
C#m                       G#m
But when I woke up this morning
           B            F#
She was gone, gone, gone
     Chorus:
                    G#m
     She said take me back won t you
          B                    E
     Take me back won t you
                        G#m
     I changed my ways
     Said take me back won t you
           B                  E
     Take me back won t you
                      G#m     C#m
     I m not the same
                          G#m        C#m
She didn t tell me about it
                              G#m
Am I supposed to read your mind?
C#m                             G#m
You made me get up and shout it
                     B     F#
It s a crime, crime, crime
C#m                     G#m
I should have seen it coming baby
C#m                       G#m
I should have seen the signs
C#m                               G#m
Didn t really think that she needs me
           B            F#
I must have been blind
