Ganja Farmer
D.S.S

First time publishing a song I have worked out!
 thought it strange that such an amazing song hadnt
been put up here before... The song is not difficult,
but the most important thing about playing this song,
which can take some practice, is to listen to the rhythm
and be strict with the muting; it makes the whole song
sound so much clearer.

Anyway

Standard Tuning: EADGBe

no capo

Intro:

B \slide down the frets before triple flicking the body of the guitar

Verse:

```
B       G#m
  Yes Im a Ganja Planter
C#m      F#
  Call me a Ganja farmer
```

This chord pattern is then repeated through the song

hope that was helpful
