   G#m             Eb7                                G#m
   Raven hair and ruby lips,  Sparks fly from her finger tips,
                        Eb7                                        G#m
   Echoed voices in the night,  She s a restless spriit on and endless flight

   G#m      Eb7                                     G#m

   She had me spell-bound in the night.  Dancing shadows in the fire light
                        Eb7
   Crazy laughter in another room,
                                                G#m
   And she drove herself to madness with a silver spoon. (al coda (+)
