```
    F#                          E
I m flat on the floor with my head down low
          B                   E
Where the sky can t rain on me anymore
      F#                      E
Don t knock on my door cause I won t come
    B                          E           F#
I m hiding from storm till the damage gets done

E           B                F#
Baby, baby, baby, baby tell me why
          E                 B             F#
You gotta make me, make me, make me, make me cry, oh Lord
     E             B                     F#
If I told you once I told you a thousand times
          G#
You can t knock me off my feet
          C#
When I m already on my knees
```

(refrão)

```
Baby, baby, baby, baby tell me how
You think you re gonna live without my love now
I don t know why you gotta keep coming around
Creeping up my street
Boy you can t bother me
```

(refrão)

```
F#m                        A
You ain t gonna get to me tonight
                                          F#m
I ll lay right here  til it all blows through
I ain t gonna raise my body
           C#
Till there ain t no sign, till there ain t no sign
Till there ain t no sun to you
```
