Time
Tom Waits

Time , from the CD Rain Dogs

[Intro]
|**C** **G7** |

[Verse]
|**C** |**C** |**F** **G7** |**C** |
|**C** **G7** |**C** |**F** |**G7** |

[Chorus]
|**C** **G7** |**C** |**F** **C** |**G7** |
|**C** **Em** |**F** **Dm** |**C** **G7** |**C** |

[Verse]

C
The smart money s on Harlow
C
And the moon is in the street
F **G7** **C**
The shadow boys are breaking all the laws
F **G7**
And you re east of East Saint Louis
C
And the wind is making speeches
F **G7**
And the rain sounds like a round of applause

C
Napoleon is weeping
C
In the carnival saloon
F **G7** **C**
His invisible fiance s in the mirror
F **G7**
And the band is going home
C
It s raining hammers, it s raining nails
F **G7**
It s true there s nothing left for him down here

[Chorus]

```
         C     G7    C
And it s time, time, time
         F     C     G7
And it s time, time, time
         C     Em   F              Dm
And it s time, time, time, that you love
         C     G7    C
And it s time, time, time
```

[Verse 2]

```
C
And they all pretend they re orphans
C
And their memory s like a train
        F              G7                    C
You can see it getting smaller as it pulls away
        F                  G7
And the things you can t remember
         C
Tell the things you can t forget
     F                              G7
That history puts a saint in every dream

C
Well she said she d stick around
C
Until the bandages came off
          F                G7                  C
But these mama s boys just don t know when to quit
       F                 G7
And Matilda asks the sailors
          C
Are those dreams or are those prayers?
     F                          G7
So close your eys, son and this won t hurt a bit
```

[Chorus]

```
         C     G7    C
And it s time, time, time
         F     C     G7
And it s time, time, time
         C     Em   F              Dm
And it s time, time, time, that you love
         C     G7    C
And it s time, time, time
```

[Verse 3]

```
C
Well things are pretty lousy
C
For a calendar girl
    F                    G7                C
The boys just dive right off the cars and into the street
    F                 G7
And when they re on a roll
            C
She pulls a razor from her boot
      F                                 G7
And a thousand pigeons fall around her feet

C
So put a candle in the window
C
And a kiss upon his lips
       F                G7                C
As the dish outside the window fills with rain
F                G7
Just like a stranger
         C
With the weeds in your heart
    F                                 G7
And pay the fiddler off  till I come back again

[Chorus] x2

         C     G7    C
And it s time, time, time
         F     C     G7
And it s time, time, time
         C     Em   F               Dm
And it s time, time, time, that you love
         C     G7    C
And it s time, time, time
```
