If The River Can Bend
Elton John

```
G                       G4  G
 I don t know what to say
                   D/F# Em       Em/D
 I don t know where the light shines
          C                    G/B
 It s a grey dawn rising on a green hill
       A/C#            D      D4 D7
 And there s so much behind us

G                       G4  G
 I don t know where we go
                           D/F# Em       Em/D
 I sure feel there s something out there
            C                    G/B
 There s a great awakening and a new morning
            A/C#                       D    D4 D7
 And your spirit s pounding loud and clear

         F
If the river can bend
      C/E              G
I ll find you waiting
                        Dm      Dm/C
Home at last from the wild sea
F
All the twists and turns
       Am
We ve made together
C
All the boats you rocked
           G   D D4 D
With your harmony

        Cm
If the river can bend
       Bb/D
If the river can bend
        Cm
If the river can bend
        D7             D4 D7
If the river can bend

Come and embrace the struggle
But win or lose we live here
Build a new beginning on an old rock
Breathe deep of the sweet fresh air
```
