Black Mermaid
Esthero

I m an amateur guitar player and this song uses chords that I am unfamiliar with.
I could be completely wrong about these chords, but this is what I hear when I listen to it and I can sing the melody over these chords and it blends beautifully.

The chords in this song are strummed using only E, A, and D strings while keeping
the three higher strings G, B, and e muted.

chords used:

```
    E A D G B e
G:  3-2-0-x-x-x
A:  5-4-2-x-x-x
D:  5-5-4-x-x-x
```

Black Mermaid by Esthero

```
                G    A    D
iâ€™m a black mermaid
                       G    A    D
from the bottom of the sea
                            G    A    D
i will teach you how to love me
                            G    A    D
into greatness i will lead you
                       G    A    D
â€™cause iâ€™m a black mermaid
                       G    A    D
nothing rarer you will find
                         G    A    D
i am here for you to love me
                          G    A    D
iâ€™ve been here for all oâ€™ time
            G               A                 D
and i will wait for you to see me and to understand
        G              A                 D
that a woman can restore the soul of any broken man
           G                  A                D
if you can look beyond the waves and just believe in meâ€¦
           G                 A                    D
i am the lighthouse standing strong atop the rocks and sand
                      G    A    D
â€™cause iâ€™m a black mermaid
                       G    A    D
