Carelessness
Fair

```
Dm                              Bb
Carelessness something I ve read about
      Gsus4          Gm
in a magazine in a Journal of
Dm                        Bb
Medicine for fever and rapid heart
            Gsus4           Gm
for the younger set giving life a start

C                      Bb
All the pain in dissent
                      C
all the freedom to climb
                         Bb
A thousand wishes I ve missed
                 C
for hanging onto this

Chorus:
Dm      Bb               F         C
When a moment brings hope for everything
Dm      Bb          F         C
every time I walk away from this
Dm      Bb               F            C
Will the One who came to throw it all away
Dm    Bb               Gsus4  (or C)
ever get to see the end of this?

Carelessness is something I recognize
when you re fast asleep and I m in the right
Taking in everything you ignore
my abrasiveness and your angelcore

More minutes of life put away set aside
ever following things that I wont find

Won t you climb high
and shower some correction on me Don t dare disguise
your colorful predictions are clear
