Lost
Faith Hill

```
      Em
Is it obvious to you
           G
When you walk into a room
      D              C
Your face is all I see
        Em
And my heart races so fast
             G
I never knew a rush to feel like that
       D                    C
Every time you re touching me
             Em
I never did believe in anything
            G                D
I couldn t hold between my fingers
         Em
But the way you make me feel
              C               D
It s just so real the way it lingers

CHORUS

       G
I get lost inside your stare
  D
Lost when you re not there
        Em
When everything I have doesn t mean a thing
            C
If it s without you
            G
If it s a dream, don t wake me up
       D
I ll scream if this isn t love
    Em
If bein  lost means never knowin
                C
How it feels without you
                      G
I wanna stay lost (forever)
                     Em        C
(I wanna stay lost forever with you)

          Em
No, this feeling doesn t end
```

```
                G
It s with me everywhere I am
          D           C
Hope it never goes away
            Em
It s like defying gravity
            G
Losin  all control and bein  free
       D            C
And I always wanna stay
                      Em
I never thought that I d let go
                 G                D
Long enough to fall for someone deeply
             Em
Who had the power to erase my fears
     C              D
And find me so completely

CHORUS

Am                          Em
Don t tell me where we re goin
                G
I don t wanna know
            D
I like the mystery (I like the mystery)
          Am
I can t believe we ve come this far
         Em
So far away from where we started off
      D
You found me when I wasn t lookin

You found me
             G
And now I m lost inside your stare
 D
Lost when you re not there
       Em
And everything I have doesn t mean a thing
            C
If it s without you

Without you
           G
If it s a dream

Don t wake me up
       D
I ll scream if this isn t love
     Em
If bein  lost means never knowin
```

```
                    C
How it feels without you
          Em
Yeah, if bein  lost means never knowin
                  C
How it feels without you
           Em
Oh, if bein  lost means that I m never
              C
Gonna be without you
                      G       D
I wanna stay lost forever
                       Em       C
I wanna stay lost forever with you
```
