Tab by Sean Kasun (*)

This is actually a pretty layered song. One layer sounds like the following which he fades in at the beginning:

```
muted
|-------------------------------------------------------------------------|
|-------------------------------------------------------------------------|
|-------------------------------------------------------------------------|
|-----------------8-------------------------------------------------------|
|-6-9-6-9-6-9-6-9---9-6-9-6-9-...-----------------------------------------|
|-------------------------------------------------------------------------|
```

The main background arpeggio is this (which is repeated throughout):

```
|----2---------2--------2--------2--------------------------------------|
|-4----2---------2--2h4---2--------2--2h4-...----------------------------|
|----------3h4---------------3h4---------------------------------------|
|-------------------------------------------------------------------------|
|-------------------------------------------------------------------------|
|-------------------------------------------------------------------------|
```

Then the lead breaks out after a few seconds:

```
|------------|
|-9h11~------|
|------------|
|------------|
|------------|
|------------|
```

```
Coda
|-------------------------------------------------|
|--11~--11-12-14------------11--12-11------------|
|o----------------11--11-13-----------1311-(11)-|
|o------------------------------------------------|
|------------------------------------------------|
|------------------------------------------------|
```

```
|-------------------------------------------------------------------|
|-11~--11-12-14------------11--12-11--------------------------------|
|----------------11--11-13-----------1311-(11)-10h118~------------o|
|-----------------------------------------------------------118-----o|
|-------------------------------------------------------------------|
|-------------------------------------------------------------------|

|-----------------------------11-14---------------------------------------|
|----------11-12-14--14---14-------14---14-14-12-11----11--11-12-14------|
|o---11-13-----------------------------------------13--------------11--o|
|o-11-------------------------------------------------------------------o|
|-----------------------------------------------------------------------|
|-----------------------------------------------------------------------|

|-----------------------------------------------|
|----11-----------------------------------------|
|-13----13-11-108~-----------------------------|
|--------------------118~-----------------------|
|-----------------------------------------------|
|-----------------------------------------------|
go to coda, solo, repeat.
