Hanginaround
Counting Crows

The solo needs work but everything in the solo up to the asterisk is the correct notes

Intro:
```
e|-----------------------------------------------------------|
B|-----------------------------------------------------------|
G|-----------------------------------------------------------|
D|-----------------------------------------------------------|
A|---0--3--5h7--5--3--2--3--2----0--3--5h7-5-3h5p3--3h5p3-3|
E|1------3---------------------1-----3---------------------|(x2)
```

```
F             C           G
She sat right down on the sofa
                        F
And says where have you been
          C               G
I ve been waiting for you
     F            C               G
And last night I had something so good
                        F            C           G
These days get so long and I ve got nothing to do

                 F            C         G
Ive been hanging around this town on a corner
                F                C        G
Ive been bummin around this old town so long
                 F            C         G
Ive been hanging around this town on a corner
                F                C            G
Ive been bummin around this old town for way too long

F            C               G
We spent all day getting sober
                     F
Just hiding from daylight
    C            G
And watching tv       (...fading away)
F               C                G
We just look a lot better in the blue light
                      F
Well you know I gotta get out
    C
But Im stuck so tight
G
Weighed by the chains that keep me

                 F            C         G
```

```
       , hanging around this town on a corner
               F               C        G
I ve been bummin around this old town so long
                F            C         G
I ve been hanging around this town on a corner
               F               C           G
I ve been bummin around this old town for way too long

Solo:
e|-------------------------------------------------------------------------|
B|-------------------------------------------------------------------------|
G|-------------------------------------------------------------------------|
D|-------------------------------------------------------------------------|

A|---0--3---5-7--5p3h5--7-7--7-7-7h9-10-10/15-15-15-13--15-15-15-13-12-15-|
E|1------3---------------------------------------------------------------|
                           *
F            C               G
This girl listens to band plays

She says where have you been
F                 C               G
Been laying right here on the floor
F           C             G
I got all this time to be waiting for what is mine
      F              C             G
To be hated for what I am after the light has faded

                F            C         G
Ive been hanging around this town on a corner
               F               C        G
Ive been bummin around this old town so long
                F            C         G
Ive been hanging around this town on a corner
               F               C           G
Ive been bummin around this old town for way too long, hey

                F            C         G
Ive been hanging around this town on a corner
               F               C           G
Ive been bummin around this old town for way too long
                F            C         G
Ive been hanging around this town on a corner
                F               C           G                    F        C
I ve been bummin around this old town for way, way, way, way, too long

G                        F             C
```

```
   way, way, way, way, too long
G                          F              C
   way, way, way, way, too long
G                          F              C
   way, way, way, way, too long
G                          F              C
   way, way, way, way, too long
G                          F              C
   way, way, way, way, too long
G                          F              C
   way, way, way, way, too long
```

/ = Slide
h = hammer on
p = pull off
