Tuning: Standard
F                 C            F
I still hear the snares in the square
F                     D    C
Colours ablaze in the evening
F                          C       D
The air was still down the stormy hills
B                         C
It s good to be young and daring

F                        C           F
She was the pride of the summer that year
F                         D  C
She was my sweetheart, my lady
F                           C              D
We walked to Black Rock and stopped by the Loch
B                         C
It s good to be young and daring
B               C
It s good to be young

[Chorus]
         F              C
Beat the drum, Beat the drum
       D          B          C
Like a heartbeat, Lonely and Strong
x2

F                    C              F
Across the bay I can still hear the strains
F                     D     C
The two step loud and blaring
F                                C           D
We walked hand and hand to the beat of the band
B                         C
It s good to be young and daring
B                         C
It s good to be young and daring

[Chorus]
