[Verse 1]
D Dsus2 A F#m A
You wandered through every chartered street

Knew where the flowing water goes
D Dsus2 A F#m A
And down in every face you meet
Bm D D Dsus2 D Dsus2
You found a sadness, a story untold

[Pre-Chorus]
Bm Dsus2
You feel all the cries of all the men
D G
You feel all of their fear
Bm Dsus2
And in your voice and in your bed
D G
My mind sees thoughts that I can t hear

[Chorus]
D Dsus2 A
Could you leave them all in London?
Bm D
Could you leave them all there?
Bm
Could you run past your devils?
A Dsus2
And let your mind be clear
D A
Could you leave them all in London?
Bm D
Could you leave them all there?
Bm
Cause in you, there s an angel

[Verse 2]

```
D                Dsus2         A F#m A
 You live your life on the line
Bm                   D                D Dsus2 D
 While every blackening church appals
D                   Dsus2                 A
 And all their words run sapless and dry
Bm                      D                          Bm D Bm
 And they run like bloods on your apartment walls

[Pre-Chorus]
           Bm          Dsus2
You feel every cry of every man
          D             G
You feel all of their fear
    Bm              Dsus2
And in your voice and in your bed
                                            G
My mind sees thoughts that I can t hear

[Chorus]
                                D     A
Could you leave them all in London?
                       Bm       D
Could you leave them all there?
                           Bm7
Could you run past your devils?
                         A
And let your mind be clear
                               D      A
Could you leave them all in London?
                       Bm       D
Could you leave them all there?
                            Bm7
 Cause in you, there s an angel
                       A    Dsus2
An angel plagued by fear
                             D   A
 Cause in you, there s an angel
                       Dsus  A
An angel trapped by fear

[Outro]
               D A
Well I ll be here
               Bm D
But I ll be here
           Bm Dsus2 A
I ll be here
             D  A Bm D
Oh, I ll be here
              Bm G
Oh, I ll be here
          Dsus2 A
```

I ll be here
        D
