Need It
Half Moon Run

[Intro] **Am G C Fmaj7** 2x

[Verse 1]
```
       Dm            Am
In a dream, I was untrue
           Dm                      Fmaj7 - C
Shouted in sweats, And I knew it was you
        Dm                     Am
All the while as I traced your spine
            Dm                    Fmaj7 - C   Am
Tore out my hair as my peace of mind
```

[Chorus]
```
                       G                C
Well if you breathe in, I ll breathe in
           Fmaj7      Am
Slowly let go
               G                C
If you need it, Then I need it,
           Fmaj7      Am
Only we ll know
```

[Verse 2]
```
             Dm                   Am
Can t be the same, As we lie in a lie
             Dm                     Fmaj7 - C Dm
Knowing full well, Your virtue s my vice
                     Am                       Dm
In the night we are one,  Til the moment is gone,
                       Fmaj7 - C                Am
 Til my race has been run
```

[Bridge]
```
Em                    Dm                       C
And those sorry words, Make me not know my mind
                             Fmaj7
And they re so afraid for use
```

[Outro]
```
Am
                      G                       C
