Biggest challenge here is to keep a constant steady tremelo picking
while switching between the strings.
A good exercise for noobies.

```

d-------------------------------------14-14-14-14-14-14-14-|
a-12-12-12-12-12-12-12-12-12-12-12-12----------------------|
E-------------------------------------------------------------|
                                                        x3

g-------------------------------------------------------------|
d-------------------------------------13-13-13-13-13-13-13-|
a-12-12-12-12-12-12-12-12-12-12-12-12----------------------|

  After repeating a bunch of times glissando down to   x1
  open string.

```
g-------------------------------------------------------|
d-------------------------------------------------------|

  Bang on open string hard, let ring.

Just keep slowing down until all momentum is dead and gone.
