   F#                              F#/C   F#
I loved you when you were in the 7th grade
                            C#/F#
You had other things going on
At 17 you started looking my way
At 17 I was already gone

I heard out of high school you got married
And I went off to find it on the coast
Communication kinda got buried
But I still thought of you the most

 F#                    F#/C  F#                C#/F#
Don t die wondering, Lu - cille, eyes so blue
 Ebm                   B F#
Don t die wondering, Lucille
               C#   Ebm   B   F#  C#   F#     F#  C#   Ebm   B   F#  C#   F#
I don t wanna die wondering about you

Every now and then I think about you
You were living some place out west
I heard your husband was without you
Then you had another one so fast

At the reunion I saw you from up above
Couldn t help but thinking something s wrong
Maybe you were looking too hard for love
Maybe you had it all along
```

Did something felt so fine never left all this time?

Now they say you re back around again
Big surprise, me too
I d love to see what s going on my friend
Unless you got better things to do

Don t die wondering, Lucille, eyes so blue
Don t die wondering, Lucille
I don t wanna die wondering ...
I don t wanna die wondering ...
I don t wanna die wondering about you
