```
G                       C/G                 G
I m trying to find the bright part of your story
       C/G                G           C/G
But it leaves me with the feeling of defeat
G                         C/G             G        Em
And yes I know its really not my place to worry
        Am                 C/G              Em
But you got too close, you got too close to me

                   C/G                       G                  D
And now I ve gotta tell you that I ve never been more disappointed
           C/G                                 G                   D
I ve gotta show you, that every time you fall behind it breaks my heart
        C     G           Em      Am   C     G           Em      Am
So it s time somebody got hard on you (time somebody got hard on you)
         C     G           Em      G
Yes it s time somebody got hard on you.

It s not for you, but for the ones that love you
Me I m not one but I love the ones that do
And yes I know its really not my place to change it
But I got too close, I got too close to you

And now I ve gotta tell you that I ve never been more disappointed
I ve gotta show you, that every time you fall behind it breaks my heart
So it s time somebody got hard on you (time somebody got hard on you)
Yes it s time somebody got hard on you.
It s time somebody got hard on you.(time somebody got hard on you)
Yes it s time somebody got hard on you.
```
