```
D           E                    G
I m holding on, waiting for your call
                  A
it s simple but I can t explain this
D           E                        G

                 A
I m falling off I don t know why

D        A/C#                Bm

                  A
I know tomorrow s not so bright now
D            E                           G
I ll say goodbye, cause nothing good can last
                          A
you wear and fade you re no where fast

     Bm                  Bb(5#)
and today, I don t know how
                 E
to keep it all inside
                          G
but I guess I ll let it slide

D        A/C#                Bm
I still believe it when you say
      A                E
it s another perfect day
                 G
another perfect day
