F           Bb          C         F
 Out of the clear blue cloudless skies

A bolt of lightning came
            Bb       C      F
Were you at least a bit surprised
     Bb      C          F
When angels spoke your name?

                C
They said it s you
                Bb     Bbmaj7    F
Who puts the gravity in the ground
                C
They said it s you

Who all the stars revolve around

Scientists were wrong
           Gm    Bbmaj7  Bb                C

The world belongs to you

F           Bb          C         F
No one escapes the things they ve done

A fate that fits the crime

You ve got a plan for everyone
     Bb      C          F
Where do you find the time?

                C
Because it s you
                Bb     Bbmaj7    F
Dancing the planets on a string
                C     Bb     Bbmaj7    F
And it s you who s got to handle everything

```

The world belongs to you

```
Dm                          Bb
   From inside these limousines
                      G            D/Bm
The world is looking darker every day
Dm                          Bb
   And you wonder if that means
                          G            D/Bm
That when you close your eyes it goes away
    Bb    Bbm
It goes away

F           Bb          C         F
Tie up your loose ends one by one
  Bb       C         F
Your time is almost through
            Bb       C      F
Even your angels think you re done
     Bb      C          F
They roll their eyes at you

               C
Because it s you
               Bb     Bbmaj7    F
Who s getting bigger every day
         C
And it s you
             Bb     Bbmaj7    F
Who s gonna drive them all away
D
As they turn to go
            Gm    Bbmaj7  Bb                C
You can forgive them for they know not what they do
                      Bb   Bbmaj7 Gm C/F# F
The world belongs to you
