[Verse]
```
                E
Ain t no talkin to this man
                E
Ain t no pretty other side
                A
Ain t no way to understand the stupid words of pride
                 Bsus   B                A               A/A
It would take an acrobat, and I already tried all that
                  E  A  E
I m gonna let him fly
E
Things can move at such a pace

The second hand just waved goodbye
                       A
You know the light has left his face

But you can t recall just where or why
                     Bsus      B
So there was really nothing to it
                A                    B
I just went and cut right through it
                         E   A  E
I said I m gonna let him fly yeah
           A               B
There s no mercy in a live wire
   C#m
No rest at all in freedom
A                  F#m            C#m
The choices we are given it s no choice at all
    A               B
The proof is in the fire
    E                      C#m       G#m
You touch before it moves away
F#m                                            B     Bsus B
But you must always know how long to stay and when to go
                           E
```

And there ain t no talkin to this man

He s been tryin to tell me so

```
                  A                              C#m
It took awhile to understand the beauty of just letting go
                       A                  C#m          B
Cause it would take an acrobat, I already tried all that
```

[Outro]

```
B                  E A E
I m gonna let him fly
A                 E
I m gonna let him fly  fly
A                 E
I m gonna let him fly
```
