You Had Me From Hello
Kenny Chesney

You Had Me From Hello

This is one of those great Kenny Chesney songs from before the coconut wanged him on
the head and made it so that all he could write was island songs.

[Intro]
C# G# F#

[Verse]
```
      C#                      G#
One word   That s all you said
        Bbm                                   F#
And something in your voice caused me to turn my head
      C#                G#
Your smile just captured me
     Bbm                          F#
And you were in my future far as I could see
        G#                                     C#
And I don t know how it happened, but it happened still
      Bbm                              F#      G#
You asked me if I love you, if I always will    Well..
```

[Chorus]
```
 C#       G#               F#
You    had me from hello
                            Bbm
And I felt love start to grow
                     F#                G#
The moment that I looked into your eyes you won me
 C#       G#                   F#
It    was over from the start
                            Bbm
You completely stole my heart
                        F#   G#
And now you won t let go - o
    F#                               G#
I never even had a chance you know
                       C#  G#  F#  C#  G#  F#
You had me from hello
```

[Verse]
```
     C#              G#
Inside I built a wall
    Bbm                                   F#
So high around my heart I thought I d never fall
```

```
     C#                    G#
One touch you brought it down
   Bbm                              F#
Bricks of my defenses scattered on the ground
        G#                           C#
And I swore to me I wasn t gonna love again
 Bbm
Last time was the last time
     F#               G#
I d let someone in, but

[Chorus]
 C#       G#               F#
You    had me from hello
                           Bbm
And I felt love start to grow
                     F#                G#
The moment that I looked into your eyes you won me
 C#       G#                  F#
It    was over from the start
                            Bbm
You completely stole my heart
                        F#   G#
And now you won t let go - o
    F#                              G#
I never even had a chance you know
                    C#
You had me from hello

[Outro]
      G#
That s all you said
        Bbm                                  F#
And something in your voice caused me to turn my head
                    C#      G#      F#
You had me from hello
                    C#      G#
You had me from hello
F#            G#                        C#     G#     F#     G#sus4  G#   C#
  Girl I ve loved you from      hello
```
